Retraction of: *Scientific Reports* <https://doi.org/10.1038/s41598-021-00945-9>, published online 02 November 2021

The Authors have retracted this Article.

After publication the Authors became aware of anomalies in two of the figures. Specifically:

- in Figure 1C, the middle panel in the left column for the invasion assay overlaps partially with the middle panel in the right column for the migration assay;
- in Figure 5D, the following four panels overlap partially: migration control, invasion control, migration 50uM and invasion 50uM.

All Authors agree with this retraction and its wording.
