OPEN Publisher Correction: Altered endothelial dysfunction-related miRs in plasma from ME/CFS patients

J. Blauensteiner, R. Bertinat, L. E. León, M. Riederer, N. Sepúlveda & F. Westermeier

Correction to: *Scientific Reports* <https://doi.org/10.1038/s41598-021-89834-9>, published online 19 May 2021

The original version of this Article contained errors.

Affiliation 5 was incorrectly given as ‘Centro de Estatística e Aplicações, Universidade de Lisboa, Lisbon, Portugal’. The correct affiliation is listed below.

‘CEAUL - Centro de Estatística e Aplicações da Universidade de Lisboa, Lisbon, Portugal’.

In Table 1, there is a repeated error in the superscripts where “kg/m²” was incorrectly given as “kg/m2”, “10⁹/L” was incorrectly given as “109/L” and “10¹²/L” was incorrectly given as “1012/L”.

Additionally, in the PDF part of the sentence “We detected increased plasma levels of each miR in ME/CFS patients compared to HCs, independent of disease severity.” was incorrectly placed next to Figure 5.

Part of the sentence “cohort of ME/CFS patients¹⁷.” was incorrectly placed next to Figure 6.

Lastly, part of the sentence “Our results also showed increased circulating miR-92a both in ME/CFSmm and ME/CFSsa patients, in agreement with a recent study using PBMCs¹⁶.” was incorrectly placed next to Figure 8.

The original Article has been corrected.
