Author Correction: The accumulation of microplastic pollution in a commercially important fishing ground

Eoghan M. Cunningham, Sonja M. Ehlers, Konstadinos Kiriakoulakis, Pia Schuchert, Nia H. Jones, Louise Kregting, Lucy C. Woodall & Jaimie T. A. Dick

Correction to: *Scientific Reports* <https://doi.org/10.1038/s41598-022-08203-2>, published online 10 March 2022

The original version of this Article contained an error in Fig. 1 where the values were incorrect. The original Fig. 1 and accompanying legend appear below.

The original Article has been corrected.

Published online: 06 April 2022

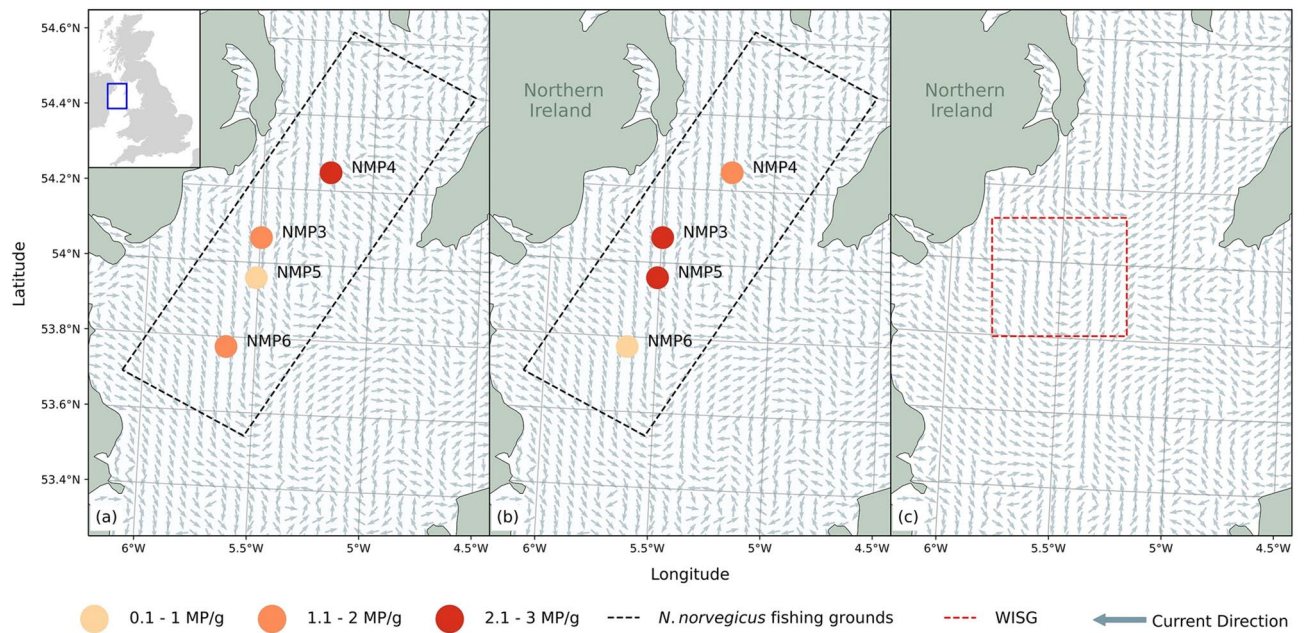

Figure 1. The location, site ID and mean microplastics per gram (MP/g) found within the four sediment sampling sites from the Western Irish Sea fishing grounds in (a) January 2016 and (b) January 2019. Monthly modelled residual currents for January 2020 (a,b) and July 2020 (c) demonstrating the development of the WISG in early summer. Modelled current data from E.U. Copernicus Marine Service Information²⁵.
