Author Correction: Large-scale societal dynamics are reflected in human mood and brain

Alexander V. Lebedev, Christoph Abé, Kasim Acar, Gustavo Deco, Morten L. Kringelbach, Martin Ingvar & Predrag Petrovic

Correction to: *Scientific Reports* <https://doi.org/10.1038/s41598-022-08569-3>, published online 17 March 2022

The original version of this Article contained errors.

The authors omitted the below Reference, which is listed below as Reference 48.

48. Prechter, R. *The Wave Principle of Human Social Behavior and the New Science of Socionomics*, New Classics Library. ISBN-10:0932750494, (1999).

As a result, in the last sentence of the last paragraph in the Results section,

“All of the above supported Casti’s hypothesis of stock markets as a useful metric stick for global societal dynamics¹.”

now reads:

“All of the above supported the hypothesis of the stock market as a useful metric stick for global societal dynamics⁴⁸.”

As a result of this change, the References have been renumbered.

The original Article has been corrected.
