In the version of the article initially published, natamycin, a macrolide fungicidal, was incorrectly described as an aminoglycoside antibiotic. In the “Broad application of the NCM pathway” section, the text “Moreover, it is a native producer of natamycin (pimaricin), a representative aminoglycoside antibiotic” has been amended to “Moreover, it is a native producer of natamycin (pimaricin), a macrolide fungicidal.” In the final paragraph of the Discussion, the text “aminoglycosides (natamycin) and macrolides (spinosad)” has been amended to “aminoglycosides and macrolides (natamycin and spinosad).” These corrections have been made to the HTML and PDF versions of the article.
