Correction to: *Nature Metabolism* <https://doi.org/10.1038/s42255-020-00305-3>, published online 16 November 2020.

In the version of this article initially published, in Fig. 3e, a data point was missing on the M1 WT bar in the ADPR graph, and two extra-neous data points were present above the M1 *Cd38* KO bar in the ADP graph. In addition, in Fig. 7l, three asterisks indicating statistical significance were missing above the rightmost LPS bar in the NAM graph. Finally, in the last paragraph of the discussion, a description and citation of a related manuscript published in the same issue of *Nature Metabolism* had been inadvertently omitted. The errors have been corrected in the HTML and PDF versions of the article.
