Publisher Correction: Database-independent molecular formula annotation using Gibbs sampling through ZODIAC

Marcus Ludwig [ID], Louis-Félix Nothias [ID], Kai Dührkop [ID], Irina Koester [ID], Markus Fleischauer, Martin A. Hoffmann [ID], Daniel Petras [ID], Fernando Vargas, Mustafa Morsy, Lihini Aluwihare, Pieter C. Dorrestein and Sebastian Böcker [ID]

In the version of this Article originally published, in the Methods section, some of the mathematics formatting was incorrect. In the subsection 'Graph-theoretical formulation', '$\binom{V}{2}$' was twice given incorrectly as '$(0.0ptV2)$'; in Lemma 1, '$G = (V, E)$' was incorrectly given as '$g = (v, e)$', and 'G' as 'g'; in Lemma 2, '$O(|V(c)| + \deg(u) + \deg(v))$' was incorrectly given as '$O(+ \deg(u) + \deg(v))$'. All versions of the Article have been corrected.
