

## Author Correction: Radionuclides from the Fukushima Daiichi Nuclear Power Plant in terrestrial systems

Yuichi Onda , Keisuke Taniguchi, Kazuya Yoshimura , Hiroaki Kato, Junko Takahashi, Yoshifumi Wakiyama, Frederic Coppin and Hugh Smith 

Correction to: *Nature Reviews Earth & Environment* <https://doi.org/10.1038/s43017-020-0099-x>, published online 27 October 2020.

In the original published article, errors were inadvertently introduced in the calculation of the  $^{137}\text{Cs}$  balance for Figure 3. Specifically, fluxes between soil and tree were duplicated for 2018, leading to an overestimation of the radiocesium inventory in the tree body: 21% in the original manuscript (Fig. 3e) instead of 11.2%.

Figure 3b, c, e and f have been updated to reflect the revised  $^{137}\text{Cs}$  estimates, and the text discussing radiocesium inventory in deciduous hardwood forest revised from 21% to 11%. These changes do not affect the findings of the Review. These errors have been corrected in the HTML and PDF versions of the manuscript.
