## Author Correction: Whole-muscle fat analysis identifies distal muscle end as disease initiation site in facioscapulohumeral muscular dystrophy

Linda Heskamp , Augustin Ogier, David Bendahan & Arend Heerschap 

Correction to: *Communications Medicine* <https://doi.org/10.1038/s43856-022-00217-1>, published online 01 December 2022.

There was a mistake in the title of Figure 6 of this article. The title previously read ‘Typical examples of muscles in facioscapulohumeral muscular dystrophy (FSHD) patients not showing a decreasing proximo-distal fat infiltration profile’. However, the correct title is ‘Typical examples of muscles in facioscapulohumeral muscular dystrophy (FSHD) patients not showing a decreasing distal-to-proximal fat infiltration profile’. This has now been corrected in the HTML and PDF versions of the article.
