

INDEX

The principal subjects of the 1966 Meeting are separately listed in *Italic Type*.

(A) indicates an abstract from a paper read at a meeting.

(D) indicates a discussion of a paper read at a meeting.

- Acute tetraplegia. *See* Cheshire, D. J. E., 1
Ankylosing spondylitis, para- and tetra-
 plegia in, 188-207
- Anterior rhizotomy for the relief of spasti-
 city. *See* Sutcliffe Kerr, A., 154
