

## INDEX

(A) indicates an abstract from a paper at a meeting.

(D) indicates a discussion from a paper at a meeting.

- Amako, T. Workshops for paraplegics in Japan, 131 (A)
- Ascoli, R., 182 (D)
- Associated chest injuries—Frankel, H. L., 221
- Associated fracture in traumatic paraplegia—Tricot, A. and Hallot, R., 221
- Associated fractures of the limbs in traumatic paraplegia and tetraplegia—Benassy, J., 209
- Associated injuries—chest injuries and complications in the early stages of spinal cord injury—Silver, J. R., 226
- Associated injuries—early management of, in the presence of co-incident damage to the spinal cord—McSweeney, T., 189
- Associated injuries—frequency and distribution of in traumatic paraplegia and tetraplegia—Meinecke, F. W., 196
- Associated injuries and complications of stab wound of the spinal cord—Lipschitz, T., 75
- Associated injuries in traumatic paraplegia and tetraplegia—Harris, P., 215
- Bedbrook, G. M. Spinal injuries unit—organisation of at the Royal Perth Hospital, Australia, 150
- Benassy, J. Associated fractures of the limbs in traumatic paraplegia and tetraplegia, 209
- Blast injury of the spinal cord—Wolman, L., 83
- Bors, E. Spinal Injuries Centre of the Veterans Administration Hospital, Long Beach, California, U.S.A., 126  
*See* Nyquist, R. H., 22
- Cholesterol and protein studies in early stages of traumatic paraplegia and tetraplegia—Edwards, K. B., Frankel, H. and Guttman, Sir Ludwig, 49
- Cobb, O. E. *See* Talbot, H. S., 97
- Coeuilliez, A., 14 (D)
- Congenital narrowing of the spinal cord—Hancock, D. O., 89
- Dollfus, P., 243 (D)
- Edwards, K. B., Frankel, H. and Guttman, Sir Ludwig. Cholesterol and protein in studies in early stages of traumatic paraplegia and tetraplegia, 49
- Frankel, H. Associated chest injuries, 221  
*See* Edwards, K. B., 49
- Fromm, H. Scoliosis and paraplegia, 17
- Gaspar, V. Spinal units—importance of individualisation of, in hospital organisation, 137 (A)
- Gregg, T. M. Spinal injuries unit—organisation of, within a rehabilitation centre, 163 (A)
- Grogono, B. J. S., 15 (D)
- Grossiord, A., 244 (D)
- Guttman, Sir Ludwig, 180 (D), 185 (D), 245 (D)  
History of the National Spinal Injuries Centre, Stoke Mandeville Hospital, 115  
*See* Edwards, K. B., 49
- Hallet, R. *See* Tricot, A., 211
- Hancock, D. O. Congenital narrowing of the spinal cord, 89
- Hardy, A. G., 244 (D)
- Harris, P., 13 (D)  
Spinal units, organisation of, 132  
Associated injuries in traumatic paraplegia and tetraplegia, 215
- Hingorani, K., 184 (D)
- History of the National Spinal Injuries Centre, Stoke Mandeville Hospital—Guttman, Sir Ludwig, 115
- Hodgson, A. R., 16 (D)
- Istituto Fisioterapico e di Reeducazione Motoria Selvapiana Del Circeo-Sabaudia, Italy—Pedaccia G., 178 (A)
- Jarrett, J. E. *See* Talbot, H. S., 97
- Jousse, A., 14 (D)
- Kerr, W., 14 (D), 182 (D)
- Lipschitz, R., 181 (D), 184 (D), 243 (D)  
Associated injuries and complications of stab wounds of the spinal cord, 75
- Maglio, A. Spinal unit, organisation of an autonomous unit as part of a National Accident Insurance Organisation, 176 (A)
- Mahoney, E. M. *See* Talbot, H. S., 97
- McSweeney, T., 15 (D), 244 (D)  
Spinal unit, Midland Unit at Robert Jones and Agnes Hunt Orthopaedic Hospital, Oswestry, 142

- Associated injuries—early management of, in the presence of co-incident damage to the cord, 189
- Meinecke, F. W., 185 (D), 244 (D)
- Opening of the Centre for Spinal Injuries of Heidelberg, 104
- Spinal unit, in an accident hospital, 147 (A)
- Associated injuries—frequency and distribution of in traumatic paraplegia and tetraplegia, 196
- Michaelis, L., 13 (D), 180 (D), 182 (D)
- Opening of the Swiss Paraplegic Centre in Basle, 107
- Mortality and survival in traumatic myelopathy during nineteen years from 1946 to 1965—Nyquist, R. H. and Bors, E., 22
- Nyquist, R. H. and Bors, E. Mortality and survival in traumatic myelopathy during nineteen years from 1946 to 1965, 22
- Opening of the Centre for Spinal Injuries at Heidelberg—Meinecke, F. W., 104
- Opening of the Swiss Paraplegic Centre in Basle—Michaelis, L., 107
- Pott's paraplegia—a classification based upon the living pathology—Hodgson, A. R., 1
- Paeslack, V. Spinal unit—organisation of, within a university hospital, 140 (A)
- Pedacchia, G. Istituto Fisiterapico e di Reeducazione Motoria Selvapina del Circeo-Sabaudia, Italy, 178 (A).
- Rehabilitation—fifteen years' experience at Rehabilitation Institute of Warsaw University, Poland—Weiss, M., 158
- Roaf, R., 181 (D)
- Rossier, A. B. Spinal unit—organisation and function of the French Swiss Paraplegic Centre, 166
- Sarrias-Domingo, M. Spinal injuries unit—organisation of autonomous unit, 170
- Scoliosis and paraplegia—Fromm, H., 17
- Silver, J. R., 183 (D)
- Associated injuries—chest injuries and complications in the early stages of spinal cord injury, 226
- Spinal Cord Injury Centre of the Veterans Administration Hospital, Long Beach, California, U.S.A.—Bors, E., 126
- Spinal injuries unit—organisation of, at Royal Perth Hospital, Western Australia—Bedbrook G. M., 150
- Spinal injuries unit—organisation of within a rehabilitation centre—Gregg, T. M., 163 (A)
- Spinal injuries unit—organisation of autonomous unit—Sarrias Domingo, M., 170
- Spinal units—organisation of—Harris, P., 132
- Spinal unit—in an accident hospital—Meinecke, F. W., 147 (A)
- Spinal unit—Midland Unit of Robert Jones and Agnes Hunt Orthopaedic Hospital, Oswestry—McSweeney, T., 142
- Spinal unit—organisation and function of the French Swiss Paraplegic Centre—Rossier, A. B., 166
- Spinal unit—Organisation of an autonomous unit as part of a National Accident Insurance Organisation—Maglio, A., 176 (A)
- Spinal units—Organisation of, within a university hospital—Paeslack, V., 140 (A)
- Spinal units—importance of individualisation of in hospital organisation—Gaspar, V., 137 (A)
- Talbot, H. S., Mohoney, E. M., Jarrett, J. E., and Cobb, O. E. Uretero-vesical dynamics in relation to reflux, 97
- Toronto General Hospital—statement of Medical Committee, 246
- Tricot, A. L. and Halot, R. H. Associated fractures in traumatic paraplegia, 211
- Uretero-vesical dynamics in relation to reflux—Talbot, H. S., Mahoney, E. M., Jarrett, J. E. and Cobb, O. E., 97
- Weiss, M., 184 (D)
- Rehabilitation—fifteen years' experience at Rehabilitation Institute of Warsaw, Poland, 158
- Wolman, L. Blast injury of the spinal cord, 83
- Workshops for paraplegics in Japan—Amako, T., 131 (A)
- Yeo, J., 184 (D)
- Young, J. S., 245 (D)
