FIRST PORTAL OF CALL FOR PRIMARY CARE DENTISTS

A new dental portal from NHS Dental Services for NHS dental providers and performers working in primary care is now live.

For the first time, dentists will have 24/7 secure access to both contractual information and

information on the processing of their NHS activity via the new portal.

Once users have activated their account they will be able to use the portal to check their latest activity figures, and view and download their monthly pay statements the moment they are produced.
