Product news is provided as a service to readers using text and images from the manufacturer, supplier or distributor and does not imply endorsement by the *BDJ*. Normal and prudent research should be exercised before purchase or use of any product mentioned.

NEW YEAR – RENEWED CONFIDENCE

You have the power to bring confidence to your patients in 2016 by recommending CB12.

Many people lose their self-esteem either worrying about their breath or suffering with the embarrassment of oral malodour. But a daily shot of CB12 mouthwash could change their lives for the better.

CB12 mouthwash works instantly by targeting and neutralising the volatile sulphur compounds that cause unpleasant breath. The active ingredients in CB12 also chemically bind to the tissues in the oral cavity to prevent bad breath for 12 hours.

CB12 contains 0.05% sodium fluoride to further encourage good oral health, and is available in mint menthol and mild mint menthol flavours to give your patients fresh breath confidence every day.

CB12 also offer sugar-free Boost chewing gum, with a pleasant mint flavour that can be used to boost breath confidence anywhere.

The power is in your hands – help your patients to make a new start this New Year by recommending CB12. To become a stockist or to receive an information pack contact the team now.

For more information about CB12 and how it could benefit your patients, visit www.cb12.co.uk

BRIDGING THE GAP

For all dental professionals, education is key. But for young dentists, it's imperative for success.

Step Education is a unique educational platform designed by dentists for young dentists – giving them an extraordinary opportunity to springboard into their careers with new skills and experience.

Offering a modular approach to learning, with topics covering a wide range of personal, clinical and business skills, Step Education is designed to bridge the gap between DF1 and more advanced courses, letting aspiring young dentists acquire the practical skills they need to excel in their first five years of practice.

With a team of renowned speakers and professional mentors, Step Education provides an effective mix of formal and informal learning, hands-on courses, and online and personal mentoring to ensure you get
