Corrigendum

Practice article (*BDJ* 2015; **219**: 521–529)

3D printing in dentistry

In the above Practice article Figure 2b was incorrect. The correct image and caption are as follows:

Fig. 2 (a) A 3D printed colour plaster architectural model of one of the most iconic examples of twentieth-century religious architecture designed by Le Corbusier. Model printed by *digits2widgets.com*. Photograph Chris Sullivan. **(b)** 3D printed gun. Production file controversially disseminated on the internet by American Cody Wilson. The version pictured here was produced by *digits2widgets.com* for London's Victoria and Albert Museum collection

The incorrect Fig. 2b published in the paper was of the complete 3D printed gun; the production file for which was controversially disseminated on the internet by American Cody Wilson.

The authors apologise for any inconvenience caused by the error in this figure in the original paper.
