

Help families feeling the pinch this Christmas

Spare a thought for those within the profession who are struggling with financial difficulties this Christmas. Circumstances can change suddenly for many reasons, leaving families feeling the pinch and less than cheery as the festivities get underway.

BDA Benevolent Fund offers additional financial support at this time of year to ensure that families don't miss out.

If you, or a dentist you know, are facing financial difficulties, please contact BDA Benevolent Fund, in confidence, on 020 7486 4994, or visit www.bdabenevolentfund.org.uk for more information.

The charity relies on donations. To donate, please visit www.justgiving.com/bdabenevolentfund or send a cheque, payable to 'BDA Benevolent Fund', at BDA Benevolent Fund, 64 Wimpole Street London W1G 8YS. Every £1 donated goes directly to a dentist and their family in crisis so your help really does support someone in need.

The BDA Benevolent Fund wishes you a fantastic festive season, and thanks everyone who has supported them throughout the year.

Stays looking good

A treatment centre is likely to be what patients first notice when they enter your surgery, so whilst functionality may be paramount in your mind, it's also got to look good. Belmont chairs do both. Moreover, the newly launched Ultrasoft Pro upholstery ensures your treatment centre stays looking as good as it did the day it was installed.

The Ultrasoft Pro upholstery is both ink and stain resistant, particularly important with the growing trend for lighter hues. It also offers greater microbial protection and is much more environmentally friendly as the material does not emit any toxic by-products as 99% of solvents are recaptured and recycled. The upholstery is available in a diverse colour range to ensure you get just the right shade to complement your practice's decor. In total, there are 33 shades from which you can choose.

Comfort is obviously just as important. Good looks can sometimes belie the comfort of a dental chair, which is why Belmont's upholstery exudes luxury and comfort. Arguably, a comfortable chair is a prerequisite for a relaxed working environment, especially when patients are undergoing lengthy treatments.

This New Year is it time that your surgery underwent a bit of a revamp? If so, why not pop along to Belmont's Showroom to explore the functionality as well as the comfort of the different models available? For more information call 020 7515 0333.

Keep your patients' implants safe

As a leading specialist in oral healthcare, Curaprox understands the importance of maintaining implants in preventing peri-implant mucositis and peri-implantitis.

That is why Curaprox has created the innovative ADS Implant mouthwash – the perfect tool for any patient with one or more implants.

Specifically designed to maintain excellent oral health, ADS Implant utilises the qualities of chlorhexidine, hyaluronic acid and polyvinyl pyrrolidone and can be used safely for short- and long-term use.

With benefits including accelerated wound healing, plaque control, prevention of caries, periodontitis and peri-implantitis, this gold standard mouthwash also forms a protective film on the teeth and gums to help relieve symptoms caused by irritations to the oral mucosa.

For more information on how the ADS Implant mouthwash could benefit your implant patients, contact Curaprox today.

For more information call 01480 862084, email info@curaprox.co.uk or visit www.curaprox.co.uk.
