CORRIGENDUM: Effect of magnetic dipolar interactions on nanoparticle heating efficiency: Implications for cancer hyperthermia

Luis C. Branquinho, Marcus S. Carrião, Anderson S. Costa, Nicholas Zufelato, Marcelo H. Sousa, Ronei Miotto, Robert Ivkov & Andris F. Bakuzis

This Article contains a typographical error in Equation 2:

$$\tau = \tau_0(e^\sigma - 1) \left(2^{-\sigma} + \frac{2\sigma^{3/2}}{\sqrt{\pi}(1+\sigma)} \right) \text{ should read } \tau = \tau_0(e^\sigma - 1) \left(2^{-\sigma} + \frac{2\sigma^{3/2}}{\sqrt{\pi}(1+\sigma)} \right)^{-1}$$
