13 January 2015

Updated:
27 March 2015

In this Article, the Figure labels were omitted from Figures 1-3. The correct Figures 1-3 appear below as Figure 1, Figure 2 and Figure 3 respectively.

There is also a typographical error in the Results section.

“The SAED patterns show several sets of hexagonal patterns, indicating the polycrystalline nature of the sheets within the SAED zone (800 nm²)”

should read:

“The SAED patterns show several sets of hexagonal patterns, indicating the polycrystalline nature of the sheets within the SAED zone (800 nm)”
