Corrigendum: Interactional synchrony in chimpanzees: Examination through a finger-tapping experiment

Lira Yu & Masaki Tomonaga

Scientific Reports 5:10218; doi: 10.1038/srep10218; published online 11 May 2015; updated on 21 September 2015

This Article contains the following typographical errors in the reference citations.

In the Discussion section,

“To understand the adaptive significance of interactional synchrony and its relevance to empathy³⁹ in chimpanzees, our future study will also investigate pairs of unrelated chimpanzees with a range of social relationships.”

should read:

“To understand the adaptive significance of interactional synchrony and its relevance to empathy³⁰ in chimpanzees, our future study will also investigate pairs of unrelated chimpanzees with a range of social relationships.”

In the Methods section under the subheading ‘Participants’,

“They lived together with nine other chimpanzees in an enriched outdoor compound with attached indoor residences³⁰.”

should read:

“They lived together with nine other chimpanzees in an enriched outdoor compound with attached indoor residences³¹.”

And lastly, “All chimpanzees had extensive experience with cognitive tasks using a touch screen²³ and some of the experiments included auditory cues as a discriminative stimulus^{31,32,33}. Studies on social interactions between chimpanzees have also been conducted under various experimental setups^{34,35,36,37,38}.”

should read:

“All chimpanzees had extensive experience with cognitive tasks using a touch screen²³ and some of the experiments included auditory cues as a discriminative stimulus^{32,33,34}. Studies on social interactions between chimpanzees have also been conducted under various experimental setups^{35,36,37,38,39}.”
