

CERTIFICATE of recognition

This certificate is presented to

Zhaoping Li, Olivier Allegre & Lin Li

to recognize their paper entitled "*Realising high aspect ratio 10 nm feature size in laser materials processing in air at 800 nm wavelength in the far-field by creating a high purity longitudinal light field at focus*" as this January's top downloaded paper, among all papers published by *Light: Science & Applications* in December 2022.

February 7 2023
